ZAPP AQUA

BK999275

GLAMOX LIGHTING SOLUTIONS

We provide you with solutions

Zapp Aqua is a slim and smart IP66 fitting for mounting to wall or ceiling. The design with a Zapp decorative ring gives a decorative background illumination. The fitting comes in white or anodised aluminium. An IP55 version with a daylight and presence detector is also available. Zapp Aqua is made out of long lasting materials like seawater resistant aluminium, galvanised steel and fixings in stainless steel.

ZAPP AQUA - watertight design luminaire

Design

The wide selection of luminaires in the Høvik Zapp product range are with the Zapp Aqua extended to environments where a higher IP range is demanded. This creates a complete lighting design through the whole project.

Sensor

To save energy is more important than ever. Versions with an integrated presence and daylight sensor make this happen, which switches off when there is sufficient light or no people in the area.

Solid

The design where materials like seawater resistant aluminium together with galvanised steel and stainless steel fixings will help to avoid problems with corrosion.

ZAPP AQUA 360

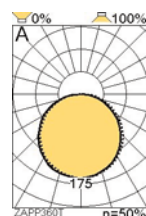

- Slim and elegant IP66 ceiling/wall luminaire with decorative backlighting.
- Available with Sensor (combined presence detector and light sensor), IP55.
- Can be used in places such as public wet areas, outdoor entrances etc.
- House number or name sign available in three sizes.

Name/number sign

ZAPP AQUA sensor

Specifications

Luminaire body with a 3mm thick decor ring made of white painted or anodised marine corrosion resistant aluminium. Impact resistant opal acrylic diffuser. Assembly backplate made in galvanized white painted steel. Screws in stainless steel. Available with combined presence detector and light sensor mounted in the centre of the diffuser (IP55). The sensor can be set to user defined values:
 Delay time: 5secs to 30min
 Bright out light value: OFF, 50 - 2.000lux
 Factory settings: "Delay time" - 15min, "Bright out light value" - OFF. House number or name sign available in three different sizes. All the internal wiring is double insulated. IP55/66, class I.

Light source

Zapp Aqua 360 is available in 1-tube T5C 22W.

Ballast

Zapp Aqua 360 is available with electronic ballast (HF) only.

Mounting

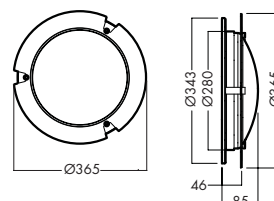

Surface mounted luminaire for installation on the wall or ceiling by use of a centre bracket.

Connection

2.5 mm² 5-way push-in terminal block ready for through wiring.

IP55/66, Ta=25°C
